Length:	27 m	Number of Engines:	2
Price:	EUR 1,250,000	Fuel Type:	Diesel
Year:	2008	Beam:	6.07 m
Condition:	Used		

Description

The LEOPARD 27 motor-yacht is a performance and fast yacht with sleek lines enhancing her sportive look.

Built in GRP by Italian yard Arno to a design by Andrea Bacigalupo, she was delivered in 2008 as LEOPARD 27 Sport model and refitted in 2011 and 2017. She is one of the last models ever built by the Italian yard.

The LEOPARD 27 has an interior in satin varnished light oak accommodating up to 8 guests in 3 luxurious and spacious cabins consisting of a master suite and two twins, each with a Pullman berth. All cabins have entertainment centres and ensuite bathroom facilities. In addition, there are quarters for three crew aboard this yacht for sale.

The open-plan saloon onboard the LEOPARD 27 has a retractable sunroof, enabling guests to dine al fresco or under cover, and comes with L-shaped settees to port and starboard in front of four coffee tables.

A second saloon below deck has further comfortable seating for relaxation in front of an entertainment centre including a large screen television. Outdoor areas are generous, with large sun pads both fore and aft, offering guests the opportunity to soak up the sun while speeding between Mediterranean hot spots, even in shallow coves.

Twin 2135 Hp MTU diesel engines linked to Arneson surface drives give her a cruising speed of 32 knots and a maximum speed of 39 knots.

Available to view in South of France, this LEOPARD 27 features low-hours, a comprehensive refit and upgrades history and the same owner and crew since new. Inspections are highly recommended.
